CAREER OBJECTIVE

A dedicated Full Stack Developer with hands-on experience building responsive, real-world web applications using React, Node.js, Express, and Firebase, and currently advancing into TypeScript, Next.js, PostgreSQL, Prisma, Docker, and AI-driven engineering. Eager to contribute to a forward-thinking team while continuing to grow as a professional software engineer.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frontend: React.js, Next.js 15, Bootstrap, React Bootstrap, Material UI, Tailwind CSS, React Router, React Hook Form
Backend: Node.js, Express.js, REST API, JWT Authentication, Firebase Admin SDK
Database & ORM: MongoDB, PostgreSQL, Firebase Firestore, Prisma ORM
AI / ML: LLM Integration, LangChain, RAG, Semantic Search, Vector Embeddings, n8n
DevOps & Cloud: Docker, Docker Compose, Nginx, AWS (EC2, S3, IAM), GitHub Actions CI/CD, Firebase Hosting
Tools: Git, GitHub, VS Code, Postman, Axios, Figma, Netlify, Vercel
Interpersonal: Team Collaboration, Problem Solving, Agile/Scrum, Adaptability, Time Management

PROFESSIONAL EXPERIENCE

United Development Initiatives for Programmed Actions (UDDIPAN) — Program Officer January 2024 – February 2026

- Developed and maintained responsive, full-stack web applications using React.js, Node.js, Express, and MongoDB/Firebase.
- Built RESTful APIs and integrated Firebase Authentication for secure, role-based user access.
- Collaborated with cross-functional teams to design, test, and deploy features on schedule using Agile practices.
- Continuously upgraded technical skill set to TypeScript, Next.js, PostgreSQL, Prisma, and Docker-based deployments.

PROJECTS

Fiacre Terra — Motorcycle Marketplace [Live](#) | [Client](#) | [Server](#)

Overview: A motorcycle marketplace where users browse, review, and purchase bikes across categories — built with React, Node.js, Express, and MongoDB.

- Firebase Authentication (email/password & Google) with protected private routes.
- RESTful CRUD API built with Express and MongoDB for product and order management.
- Responsive UI with React Bootstrap and Material UI, backed by React Hook Form validation.
- Deployed frontend on Firebase Hosting with a Node.js/Express backend.

WorldTour — Travel & Tourism Platform [Live](#) | [Client](#) | [Server](#)

Overview: A travel and tourism platform where users explore destinations, view packages, and manage bookings — built with React, Node.js, Express, MongoDB, and Firebase.

- Firebase Authentication with protected/private routing for booking management.
- RESTful API built with Node.js, Express, and MongoDB for destinations and bookings.
- Dynamic destination and package listing pages with React Router and Axios-based data fetching.
- Form validation and booking submission handled via React Hook Form.

Infant Endeavor — Childcare Care Service Website [Live](#) | [Client](#)

Overview: A professional childcare service website with secure parent authentication and service information pages — built with React and Firebase.

- Complete authentication flow (registration, login, password reset) using Firebase Auth.
- Protected private routes ensuring only authenticated users access account features.
- Clean, parent-friendly UI/UX built with Bootstrap and React Bootstrap.
- Deployed and hosted on Netlify with continuous deployment from GitHub.

EDUCATION

Jahangirnagar University — Master of Science in Information Technology 2021 – 2023

Bangladesh Army University of Science & Technology (BAUST), Saidpur — Bachelor of Science in Computer Science & Engineering 2016 – 2020

EXTRA - CURRICULAR ACTIVITIES

Next Level Web Dev — AI-Driven Software Engineering Bootcamp, Batch 07 (Programming Hero) — Completed advanced full-stack + AI engineering curriculum covering TypeScript, Next.js, PostgreSQL, Docker, AWS, LangChain & RAG.

LANGUAGES

Bengali — Native English — Professional Working Proficiency
